

Suprema Integration with Honeywell Pro-Watch

Suprema Integration with Honeywell Pro-Watch is a middleware that allows the Pro-Watch system to communicate with the Suprema biometric devices and enroll user's biometric information from Pro-Watch. The integration is intended to design solutions that will allow users to manage access control points easily and securely with Suprema device via Pro-Watch without having to manage sperate systems.

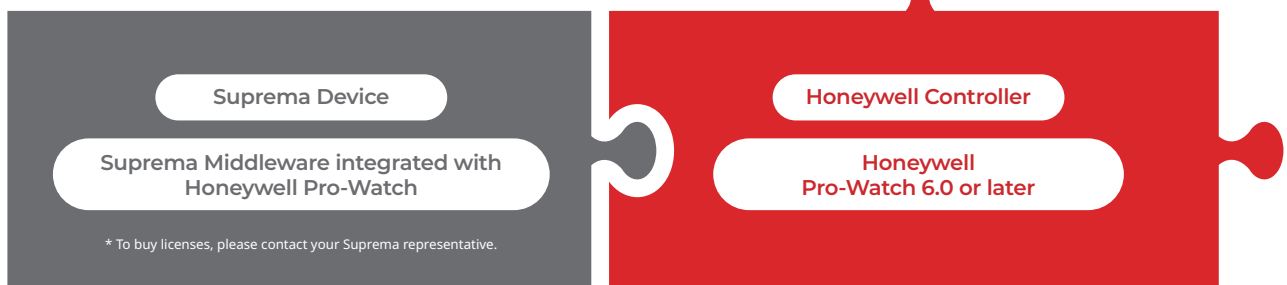

The high level of accuracy and authentication speed with Suprema device by combining complete security solution Pro-Watch will provide users with a fast, safer, and more efficient experience that will help building robust security system.

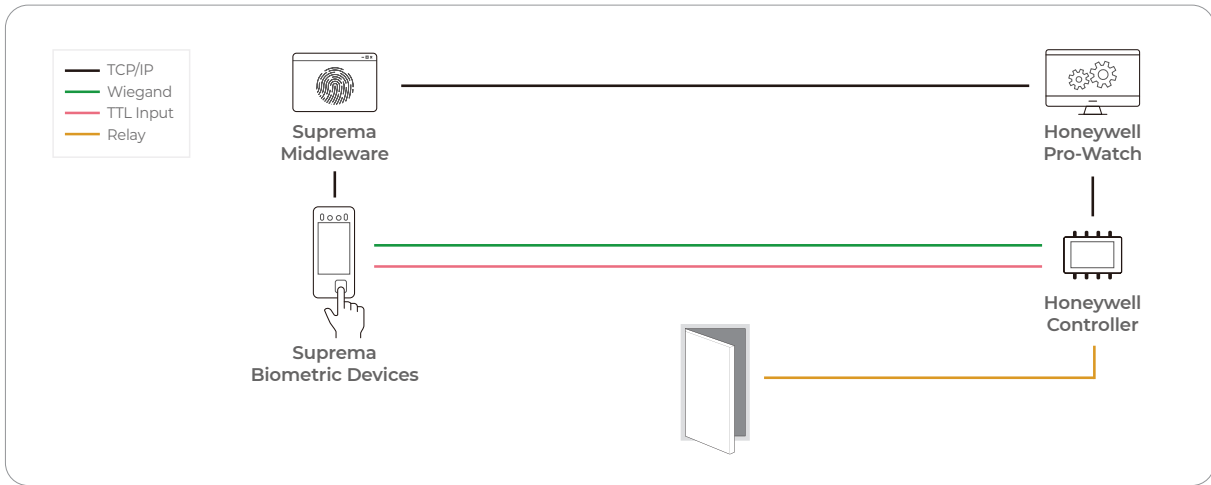

Add advanced Intelligent Biometric Solutions to Pro-Watch

Enable Biometrics	Use fingerprint, face and RFID card as credentials.
Easy User Enrollment	Provides a fingerprint and face enrollment page directly within Pro-Watch system. Real-time user synchronization from Suprema devices and Pro-Watch.
Easy Device Management	Easy management and configuration of Suprema devices in the middleware.

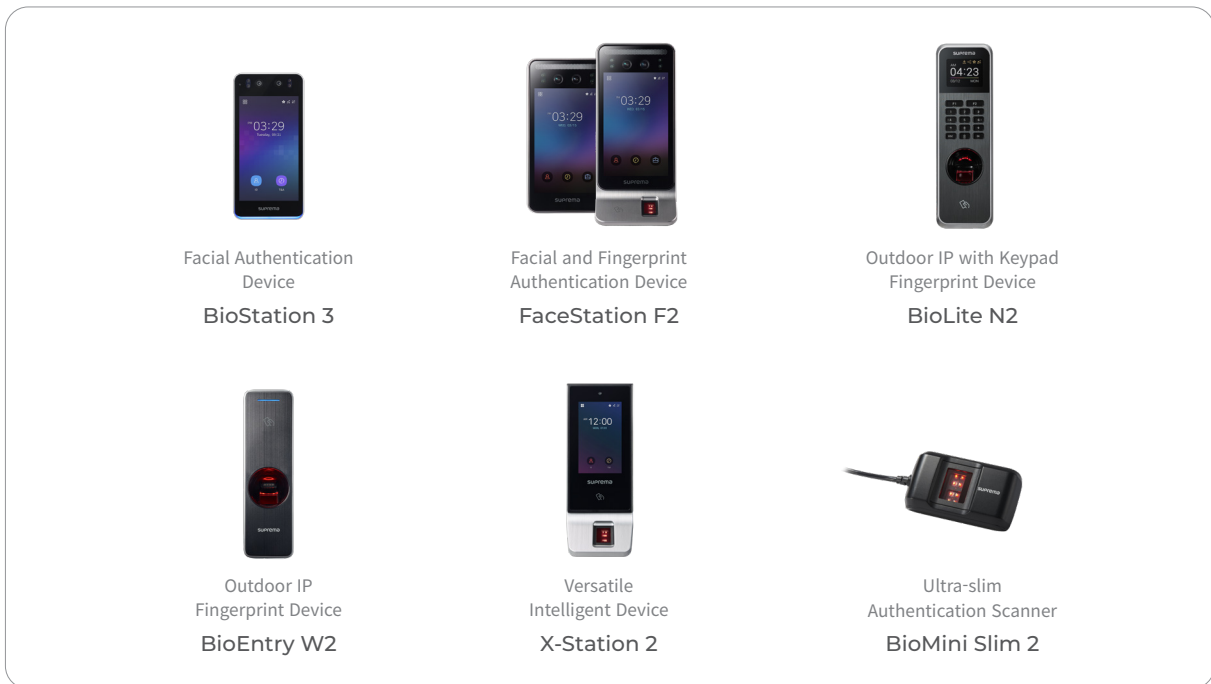

To implement this integration, you need

System Configuration

Compatible Suprema Devices
