Suprema middleware for Software House C·CURE9000

Suprema Integration with Software House C·CURE 9000 aims to provide you with the right tools to leverage biometric authentication to your new or existing site managed by C·CURE 9000 v2.90, v3.0 (and later) and related access control hardware. All with the power of Suprema's true identity technologies that for over 20 years in the market have been making the difference between performance, quality, security and endurance offering a top-in-class experience to the customer all over the world.

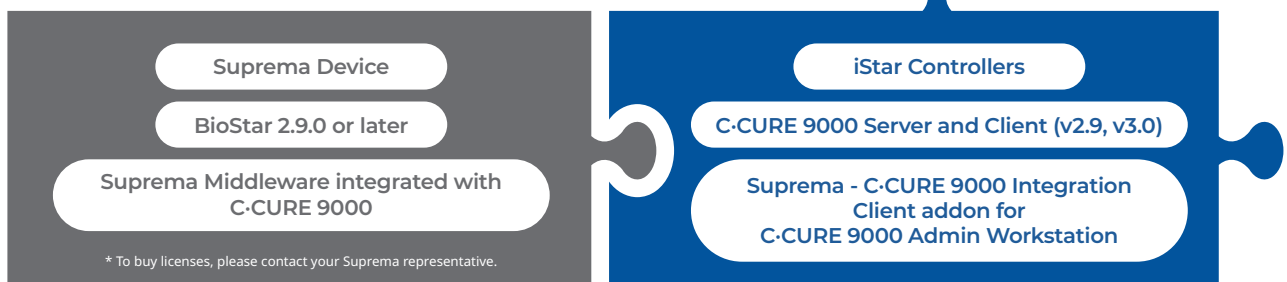

All the power of the Suprema Devices Biometrics and Credentials available right from the Personnel View in C·CURE 9000 allows you to easily enroll cards, fingerprints, and facial credentials from one place. Optimizing the registration and enrollment processes delivering efficiency and time saving.
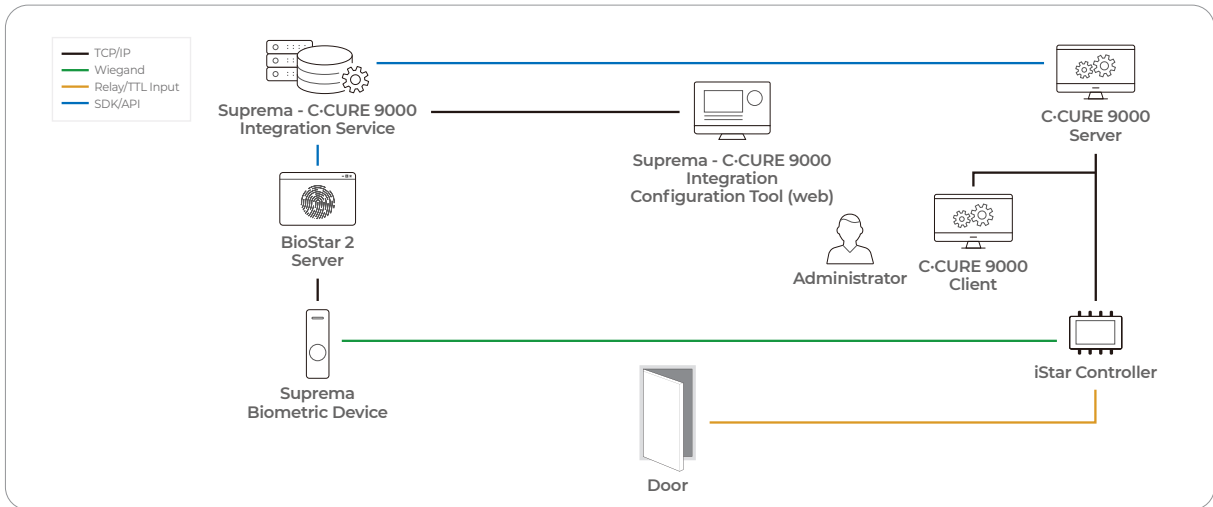

Add advanced Intelligent Biometric Solutions to C·CURE 9000

Enable Biometrics	Use fingerprint, face and RFID card as credentials.
Easy User Enrollment	Provides card, fingerprint, and facial enrollment directly from the C·CURE 9000 Personnel View, with real time sync to Suprema Devices.
Individual and Massive Operations	Sync thousand users, send pre-enrollment links, etc., in just a couple of seconds.

To implement this integration, you need

Suprema Device

BioStar 2.9.0 or later

Suprema Middleware integrated with C·CURE 9000
